

Dr. Jeremy REED

Council Decision

Effective Date:	December 8, 2012
Outcome Date:	December 18, 2012
Hearing:	Completed
Disposition:	Suspension

Dr. Jeremy Reed admitted that he had engaged in unprofessional conduct in Alberta. Among the findings of the discipline committee of the College of Physicians and Surgeons of Alberta were that:

In this document, Dr. Reed admits the allegations in the Amended Amended Notice of Hearing are true and that his conduct amounts to unprofessional conduct.

- and -

As Dr. Reed admitted to inappropriately causing or permitting a photograph to be taken of him and a patient, an act contrary to section 23 of the *Health Information Act*, and inappropriate disclosure of confidential information of two patients to people unconnected to their care, an act contrary to section 31 of the *Health Information Act*, the Tribunal finds his conduct in these matters to be "unprofessional conduct", as defined in s. 1 (1)(pp) of the HPA.

The Alberta College of Physicians and Surgeons imposed a 10-day suspension from practice. The College of Physicians and Surgeons of Saskatchewan is authorized to take disciplinary action against a physician who has been found guilty of unprofessional conduct in another jurisdiction (section 54.01 of *The Medical Profession Act, 1981*).

Council accepted the joint recommendation made by counsel for Dr. Reed and the Registrar's office and imposed a 10-day suspension commencing December 8, 2012.
